

## MDP PROGRAM STUDY PLAN

### MDP Program Study Plan

One of the key required steps during the first semester of the MDP Program is the completion and submission of an initial study plan, and the identification of a supervisory committee chair and one additional committee member. The study plan should be reviewed and revised as necessary, and serves as an important roadmap for the student, their committee and the MDP Program. The final study plan must be approved and signed by the committee chair and student prior to the field practicum presentation and defense carried out in the final semester.
